2. COMPANY PERFORMANCE:

The Company had successfully delivered its maiden commercial project, 'One Avante' (the Project), in Plot B situated at Kothrud, Pune, in the previous year. The Project has been awarded a Platinum Certification by the Indian Green Building Council (IGBC) in recognition of its leadership in sustainable and environmentally responsible building practices.

During the year under review, the Company has availed financial assistance aggregating to ₹1,150 Crores from ICICI Bank Limited, for the purpose of financing the development and construction of the Company's commercial project in the adjoining plot (Plot C+A+D) situated at Kothrud, Pune.

The Company has commenced drawdown of the aforesaid facilities, and an amount of ₹80 Crores has been drawn during the year towards project-related expenditure.

The Loss Before Tax for the year stood at ₹ 18.04 Crores (previous year loss ₹ 0.18 Crores).

3. DIVIDEND:

The Company is presently in an investment phase, with substantial resources being deployed towards the development of its ongoing project, and has not earned any profit during the year under review. In view of the aforesaid, and in alignment with the Company's strategic objective of long-term value creation, the Board of Directors has not recommended any dividend for the Financial Year ended 31 March 2026.

4. OPERATIONS:

Project Branding and Nomenclature Updates

During the year under review, the Company completed a branding exercise to establish a formal nomenclature for its ongoing developments. The building currently under construction has been named "Infinia." Furthermore, the entire campus comprising the "Infinia" and "One Avante" towers, along with all amenities and landscape areas, has been officially designated as Avante Business Park.

For the purpose of this report, the ongoing development of the adjoining plot (Plot C+A+D) will be referred to as Avante Business Park Phase-II. Specific updates pertaining to individual towers will continue to be referenced by their distinct building names.

Project Update – One Avante, Avante Business Park, Phase - I

The Company successfully delivered its maiden commercial development, 'One Avante' (the Project), located in Plot B at Kothrud, Pune, in the previous year, marking a significant milestone in its growth journey. The Project has been awarded the prestigious Platinum Certification by the Indian Green Building Council (IGBC), underscoring its leadership in sustainable design, construction and operations.

Asset and facility management for 'One Avante' is being undertaken by Colliers International (India) Property Services Private Limited under the oversight of the management of the Company. The Company continues to adopt a proactive and performance-driven approach towards asset management, with a strong focus on operational excellence, safety and sustainability. Key priorities include enhancing occupant experience, optimising lifecycle costs and ensuring long-term asset value preservation. Sustainability remains integral to operations, with environmentally responsible practices embedded across all aspects of facility management.

The Company provides a range of amenities and facility services to its group companies occupying various floors within the Project and generates stable service-based revenue streams from such offerings.

During the year under review, the Company was recognised by various industry bodies for excellence in innovation, facility management and sustainability in the corporate real estate sector, reflecting its continued commitment to best-in-class development and operational practices.

- 1) iNFHRA **Diamond award** for excellence in Water management
- 2) iNFHRA **Recognition award** for excellence in Energy Management
- 3) iNFHRA **Silver award** in excellence in Safety and Security Management
- 4) **FM Globalnet** award for excellence in Facility Management
- 5) **Procon Media** award for excellence and leadership in Admin and Facility Management

Further strengthening its commitment to global standards, the Company has successfully obtained ISO 9001, ISO 14001 and ISO 45001 certifications for 'One Avante', reaffirming its focus on quality management, environmental stewardship and occupational health and safety.

Ongoing Development – Avante Business Park – Phase II

The Company is currently developing Avante Business Park – Phase II in Plot C+A+D at Kothrud, Pune, which represents a key milestone in its growth trajectory. The project, with a leasable area of approximately 1.6 million square feet, is being developed as a Grade A+ commercial office space in one of Pune's prominent micro-markets, catering to the evolving requirements of multinational corporations, global capability centres, Banking, Financial Services, and Insurance (BFSI) and technology-driven enterprises.

The development is progressing in line with planned timelines, with all requisite statutory approvals in place, and is targeted for completion by Financial Year 2027-2028. The project is being designed with a strong emphasis on creating a differentiated workplace environment, integrating curated social infrastructure, wellness-oriented spaces and a campus-like ecosystem aimed at enhancing user experience, collaboration and productivity.

The Company continues to adopt a technology-led approach in the development, incorporating intelligent building systems, digital connectivity and predictive maintenance capabilities to drive operational efficiency and optimise lifecycle performance of the asset.

Sustainability remains a core focus area, with the project being designed to meet the highest standards of green building and environmental performance. The project has received platinum pre-certification from USGBC and IGBC. The Company is also evaluating advanced wellness standards to further enhance occupant well-being.

In addition to the ongoing development, the Company is undertaking a detailed evaluation of other development opportunities, with the objective of unlocking long-term value and strengthening its development pipeline.

Commitment to Quality, Sustainability and Governance

Your Company continues to uphold its unwavering commitment to quality, sustainability, and social responsibility. Through rigorous adherence to safety, environmental, and sustainability standards across all phases of development, the Company ensures the delivery of world-class, sustainable spaces that enhance the urban environment and stakeholder value.

The Company remains dedicated to strong corporate governance, maintaining full compliance with all applicable statutory and regulatory requirements. With disciplined execution, agile leadership, and a robust governance framework, your Company is well-positioned to create long-term value for all stakeholders and further strengthen its presence in the real estate sector.

5. PERFORMANCE OF SUBSIDIARIES, ASSOCIATE AND JOINT VENTURES:

Your Company does not have any Subsidiaries, Associates, or Joint Ventures.

The Company has adopted an Environmental, Social, and Governance (ESG) framework aligned with that of Kirloskar Industries Limited (KIL), the holding company. The ESG framework was formally adopted in the Financial Year 2023, with group-level targets for ESG parameters being considered from the Financial Year 2024 onwards. Since then, the Company has made significant progress in operational performance. The building has been thoughtfully designed to incorporate key elements of environmental stewardship, including low water consumption, responsible waste management, energy-efficient systems such as optimised natural lighting and motion-sensor-based lighting. A waste audit was conducted last month by Mission City Chakra, and it is worth highlighting that many potential waste streams were already mitigated through thoughtful design. The findings of this audit have been presented to the Board. The Company stays committed to these principles for all its upcoming projects. This aligns well with Kirloskar Group's philosophy of responsible business practices.

The Company remains committed to driving improvements across all ESG pillars while upholding the highest standards of governance in alignment with the adopted ESG framework.

INDEPENDENT AUDITOR'S REPORT

To the Members of Avante Spaces Limited

Report on the Audit of the Standalone Financial Statements

1. Opinion

We have audited the accompanying Standalone Financial Statements of **Avante Spaces Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2026, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, Statement of Changes in Equity and Statement of Cash Flows for the year then ended and notes to the Financial Statements including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, the net loss, the total comprehensive loss, changes in equity and its cash flows for the year ended on that date.

2. Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143 (10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India ('the ICAI') together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the Rules thereunder and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

3. Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Report of the Board of Directors but does not include the Standalone Financial Statements and our Auditor's Report thereon.

The above reports were made available to us before the date of this Auditor's Report.

Our opinion on the Financial Statements does not cover the other information and we will not express any form of assurance conclusion thereon. In connection with our audit of the Financial Statements, our responsibility is to read the other information identified above and in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

4. Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134 (5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatements, whether due to fraud or error.

In preparing the Financial Statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

5. Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the financial year ended March 31, 2026 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

6. Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1," a statement on the matters specified in paragraphs 3 and 4 of the said Order, to the extent applicable.
2. As required by Section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss, (including other comprehensive income) the Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid Standalone Financial Statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015 as amended.
 - (e) On the basis of the written representations received from the directors as on March 31, 2026, and taken on record by the Board of Directors, none of the director is disqualified as on March 31, 2026, from being appointed as a director in terms of Section 164 (2) of the Act.
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report.
 - (g) The Company has not paid any managerial remuneration to its directors and thus, the provisions of Section 197 read with Schedule V of the Act are not applicable to the Company for the year ended March 31, 2026.
 - (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company does not have any pending litigations which would impact its financial position except as disclosed in the Financial Statements.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

- iii. There were no amounts that were required to be transferred to the Investor Education and Protection Fund by the Company.
- iv.
 - a. The management has represented that to the best of its knowledge and belief no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person(s) or entity(ies) including foreign entities (intermediaries) with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (ultimate beneficiaries) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - b. The management has represented that to the best of its knowledge and belief no funds have been received by the Company from any other person(s) or entity(ies) including foreign entities (funding parties) with the understanding, whether recorded in writing or otherwise, that the Company shall, whether directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the funding party (ultimate beneficiaries) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - c. Based on the audit procedures considered reasonable and appropriate in the circumstances and according to the information and explanation provided to us by the management in this regard, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatements.
 - d. The Company has not declared, paid or proposed any dividend on the equity shares and 8.25% Non-Convertible Compulsorily Redeemable Cumulative Preference Shares during the year.

(This space has been intentionally left blank)

- v. Based on our examination which included test checks, the Company has used accounting software for maintaining its books of account for the financial year ended March 31, 2026 which have the feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with and the audit trail has been preserved by the company as per the statutory requirements for record retention.

- xviii. There has been no resignation of the statutory auditors during the year and accordingly the reporting under clause 3 (xviii) is not applicable.
- xix. According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of the balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- xx. On the basis of examination of books of account and records of the Company, we report that there is no unspent amount in respect of Corporate Social Responsibility which was due for transfer during the year to a Fund specified in Schedule VII to the Act or to special account in compliance with provision of sub section (6) of section 135 of the said Act.
- xxi. In our opinion and according to information and explanations provided to us reporting under clause 3(xxi) of the Order is not applicable to the Company since the Company does not have any subsidiaries, associates or joint ventures and the Consolidated Financial Statements are not required to be prepared by the Company.

Annexure-2 referred to in paragraph 6 (2) (f) under the heading 'Report on Other Legal and Regulatory Requirements' of our report on even date on the Internal Financial Controls under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013 ("the Act")

To the Members of Avante Spaces Limited

We have audited the internal financial controls over financial reporting of **Avante Spaces Limited** ("the Company") as of March 31, 2026 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013, (the Act).

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal

financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES FORMING PART OF STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2026

(Amounts in Indian Rupees crores, unless otherwise stated)

NOTE 1: CORPORATE INFORMATION

Avante Spaces Limited ("the Company") is an unlisted public company, incorporated on 17 July 2020 under the provisions of the Companies Act, 2013. The Company is engaged in the business of real estate development of land parcels owned by the Company at Kothrud, Pune.

The Company is a wholly-owned subsidiary of Kirloskar Industries Limited.

The Standalone Financial Statements of the Company for the year ended 31 March 2026 were authorised for issue by the Board of Directors on 24 April 2026.

NOTE 2: BASIS OF PREPARATION

The Standalone Financial Statements of the Company have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under the Section 133 of the Companies Act, 2013 ("the Act") read with Companies (Indian Accounting Standards) Rules, 2015, as amended and other relevant provisions of the Act.

The Company has implemented accounting policies in line with the applicable Indian accounting standards and has consistently applied the same while preparing these Standalone Financial Statements.

a) Operating Cycle/ Current versus Non-Current Classification

The Company presents assets and liabilities in the balance sheet based on current / non-current classification.

ASSETS:

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

LIABILITIES:

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no right at the end of the reporting period to defer settlement of the liability for at least twelve months after the reporting period.

Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification

The Company classifies all other liabilities as non-current.

AVANTE SPACES LIMITED**NOTES FORMING PART OF STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2026**

(Amounts in Indian Rupees crores, unless otherwise stated)

- Deferred tax assets and liabilities are classified as non-current assets and liabilities.
- The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.
- The Company has identified twelve months as its operating cycle.

The Standalone Financial Statements have been prepared on accrual basis, following historical cost convention, except for the following, which are measured on following basis on each reporting date:

Items	Measurement Basis
Share-based payment cost incurred by parent for employees of the company	Fair Value
Financial instruments	Initially at fair value and subsequently at amortised cost
Defined benefit liability/(assets):	Fair value of plan assets less present value of defined benefit obligation

Functional and presentation currency

The Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the company operates ('the functional currency'). The Standalone Financial Statements are presented in Indian rupee (₹) rounded off to nearest crores (unless otherwise stated), which is the Company's functional and presentation currency.

NOTE 3: SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, including the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Fair value of financial instruments

The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values. For further details about determination of fair value refer note 4(a) & note 42.

Defined benefit plans

The cost of the defined benefit gratuity plan and other post-employment benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate; future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds.

The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

Further details about defined benefit plans obligations are given in note 38.

Deferred tax

Deferred tax assets are recognised for all the deductible temporary differences including carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused losses can be utilised.

Estimations and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively. The estimates and associated assumptions are based on historical experience and other factors including estimation of effects of uncertain future events that are considered to be relevant. Actual results may differ from these estimates.

NOTE 4: SUMMARY OF MATERIAL ACCOUNTING POLICIES

The following are the material accounting policies applied by the Company in preparing its Standalone Financial Statements:

a) Fair value measurement:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient information is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Standalone Financial Statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable;
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the Standalone Financial Statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company's management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value.

External valuation experts are involved for valuation of significant assets and liabilities. Involvement of external valuation experts is decided upon annually by the management.

Methods and assumptions used to estimate the fair values are consistently followed.

b) Property, plant and equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost net of accumulated depreciation and impairment losses, if any.

The cost comprises of the purchase price and directly attributable costs of bringing the asset to its working condition for the intended use. It also includes the initial estimate of the costs of dismantling, removing the item and restoring the site on which it is located, where the company has such contractual obligation. Any trade discounts and rebates are deducted in arriving at the purchase price. Each part of item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably.

Capital work-in-progress

Capital work-in-progress comprises of the cost of property, plant and equipment that are not yet ready for their intended use as at the balance sheet date.

Projects under which tangible assets are not yet ready for their intended use are carried at cost comprising direct cost, related incidental expenses and attributable borrowing costs. Depreciation is not provided on capital work-in-progress until construction and installation are complete and the asset is ready for its intended use.

i. Depreciation and amortisation

Depreciation is provided on all assets (except land, being a non-depreciable asset) equally over the useful life of the individual assets as prescribed under Part C of Schedule II to the Act. These lives also reflect the management's estimate of the useful life of the respective property, plant and equipment.

In case of vehicles, useful life of 5 years (instead of 8 years as prescribed in Part C of Schedule II to the Act) and Intangible asset being trademark, useful life is 20 years has been estimated by the management of the Company for the purpose of charging depreciation.

All items of property, plant and equipment individually costing Rs 5,000 or less are fully depreciated in the year of installation.

Depreciation is recognised in the statement of profit and loss from the month in which the asset is acquired while the depreciation on assets sold during the year is recognised in the statement of profit and loss till the month prior to the month in which the asset is sold.

ii. Disposals/ derecognition

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognised.

iii. The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed annually and adjusted prospectively, if appropriate.

c) Intangible assets

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the assets will flow to the Company and the cost of the asset can be measured reliably.

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, Intangible assets are carried at cost comprising of the consideration paid for acquisition less accumulated amortisation and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and the expenditure is recognised in the statement of profit and loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite useful lives i.e. software are amortized on a straight-line basis over the period of expected future benefits i.e. over their estimated useful lives of five years.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually and whenever there is an indication that the asset may be impaired.

The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss. Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

d) Leases

Company as a Lessee:

The Company's lease asset classes primarily consist of leases for buildings. The Company, at the inception of a contract, assesses whether the contract is a lease or otherwise. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a time in exchange for a consideration. This policy has been applied to contracts existing and entered into during the Financial Year.

The Company recognises a right-of-use asset and a lease liability at the lease commencement date.

The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received. The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term. Such depreciation is recognised in the statement of Profit & Loss except to the extent that it can be allocated to any Property, Plant & Equipment.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the Company's incremental borrowing rate. After the commencement date, the lease liability is adjusted by increasing the carrying amount to reflect interest on

the lease liability; reducing the carrying amount to reflect the lease payments made; and remeasuring the carrying amount to reflect any reassessment or lease modifications. The lease liability is also remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero. The interest on the lease liability is recognised in the statement of Profit & Loss except to the extent that it can be allocated to any Property, Plant & Equipment.

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets (assets of less than Rs. 5,000 in value). The Company recognises the lease payments associated with these leases as an expense over the lease term.

Company as a Lessor:

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases or another systematic basis is available. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned. Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

e) Revenue recognition**I. Revenue from contracts with customers**

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. Revenue is measured based on the transaction price, which is the consideration, adjusted for discounts and other credits, if any, as specified in the contract with the customer. The Company presents revenue from contracts with customers net of indirect taxes in its statement of profit and loss.

The Company considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated. In determining the transaction price, the Company considers the effects of variable consideration, the existence of significant financing components, noncash consideration, and consideration payable to the customer (if any).

II. Recognition of revenue from sale of real estate inventory property

Revenue from real estate development of residential or commercial unit is recognised at the point in time, when the control of the asset is transferred to the customer, which generally coincides with either of the two conditions as stated below –

- on transfer of legal title of the residential or commercial unit to the customer; or
- on transfer of physical possession of the residential or commercial unit to the customer.

Sale of residential and commercial units consists of sale of undivided share of land and constructed area to the customer, which have been identified by the Company as a single performance obligation, as they are highly interrelated with each other. The performance obligation in relation to real estate development is satisfied upon completion of project work and transfer of control of the asset to the customer.

- III. Interest on fixed deposits with banks is recognised on a time proportion basis taking into account the amount outstanding and rate applicable. In case of significant uncertainty of receiving interest, the same is not recognised though accrued and is recognised only when received.
- IV. Other incomes are accounted as and when the right to receive such income arises and it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably.

f) Income taxes

i. Current Income Tax

Current income tax assets and expenses/ liabilities are measured respectively at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current income tax relating to items recognised outside profit or loss are recognised in correlation to the underlying transaction either in OCI or directly in equity.

ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised except when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each

AVANTE SPACES LIMITED

NOTES FORMING PART OF STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2026

(Amounts in Indian Rupees crores, unless otherwise stated)

reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside profit or loss is recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable Company and the same taxation authority.

g) Borrowing Cost:

Borrowing costs, allocated to and utilised for qualifying assets, pertaining to the period from commencement of activities relating to construction / development of the qualifying asset up to the date of capitalisation of such asset, is added to the cost of the assets. Borrowing costs that are not directly attributable to qualifying asset are recognised in the Statement of Profit and Loss using effective interest method.

A qualifying asset is an asset that necessarily takes 12 months or more to get ready for its intended use or sale and includes the real estate properties under development.

h) Provisions

A provision is recognized when the Company has a present obligation as a result of past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

When the Company expects some or all of the provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

i) Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the Standalone Financial Statements.

j) Retirement and other employee benefits

a) Short term Employee Benefits

The distinction between short term and long-term employee benefits is based on expected timing of settlement rather than the employee's entitlement benefits. All employee benefits payable within

twelve months of rendering the service are classified as short-term benefits and are measured on an undiscounted basis according to the terms and conditions of employment. Such benefits include salaries, bonus, short term compensated absences, awards, etc. and are recognised in the period in which the employee renders the related service, except to the extent that it can be allocated to any Property, Plant & Equipment.

b) Other employment benefits

(i) Defined contribution plan

The eligible employees of the Company are entitled to receive benefits under the Provident Fund which is defined contribution plans. In case of Provident Fund, both the employee and the Company contribute monthly at a stipulated rate to the government provident fund. The Company has no liability for future Provident Fund benefits other than its annual contributions which are recognised as an expense on an accrual basis.

The Company recognize contribution payable as an expenditure, when an employee renders the related services. If the contribution payable to the scheme for services received before balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then the excess recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or cash refund.

(ii) Defined benefit plan

The Company operates a defined benefit plan for its employees, viz. gratuity. The present value of the obligation or asset under such defined benefit plans is determined based on the actuarial valuation using the Projected Unit Credit Method as at the date of the Balance sheet. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The interest cost is calculated by applying the discount rate to the balance of the defined benefit obligation. This cost is included in finance cost in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly as other comprehensive income. They are included in retained earnings in the statement of changes in equity.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

(iii) Benefits for long term compensated absences:

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year end.

In regard to other long term employment benefits, the Company recognises the net total of service costs; net interest on the net defined benefit liability (asset); and re-measurement of the net defined benefit liability (asset) in the Statement of Profit and Loss.

k) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a) Financial assets

Initial recognition and measurement of financial assets

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in the following categories:

- Debt instruments at amortised cost
- Debt instruments at fair value through profit or loss (FVTPL)
- Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR. Interest income from these financial assets is included in finance income using the effective interest rate method.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company has made an irrevocable election to present subsequent changes in the fair value in the OCI. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from

OCI to statement of profit and loss, on sale of investment. However, the Company transfers the cumulative gain or loss within the equity from OCI to Retained Earnings.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss at each reporting date.

Dividends from such investments are recognised in profit or loss when the Company's right to receive payments is established.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost
- Trade receivables or any contractual right to receive cash or another financial asset

The Company follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit

risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms

b) Financial liabilities

Initial recognition and measurement

Financial liabilities are recognised initially at fair value net of, in the case of financial liabilities not classified as FVTPL, transaction costs that are attributable to the issue of the financial liability. Financial assets and financial liabilities are recognised in the Balance Sheet when the company becomes a party to the contractual provisions of the instrument.

Financial liabilities at FVTPL

Financial liabilities at FVTPL include financial liabilities held for trading and financial liabilities designated as such upon initial recognition. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the statement of profit and loss.

Financial liabilities designated as such upon initial recognition at the initial date of recognition if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risks are recognised in OCI. These gains/ losses are not subsequently transferred to the statement of profit and loss. However, the company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss.

Financial liabilities at amortised cost

After initial recognition, these instruments are subsequently measured at amortised cost using the effective interest rate (EIR) method. Gains and losses are recognised in the statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process.

AVANTE SPACES LIMITED

NOTES FORMING PART OF STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2026

(Amounts in Indian Rupees crores, unless otherwise stated)

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation on borrowings attributable to qualifying assets is capitalized as part of Capital Work-in-Progress until the asset is ready for its intended use.

Compound Financial Instruments

The issuer of a non-derivative financial instrument shall evaluate the terms of the financial instrument to determine whether it contains both a liability and an equity component.

The Company has recognised separately the components of the financial instruments that (a) have created a financial liability of the entity and (b) have granted an option to the issuer of the instrument to convert it into an equity instrument of the entity.

De-recognition of financial liability

A financial liability (or a part of a financial liability) is derecognised from the balance sheet when, and only when, it is extinguished i.e. when the obligation specified in the contract is discharged or cancelled or expired.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Inventories

Related to contractual and real estate activity

Direct expenditure relating to construction activity is inventorised. Other expenditure (including borrowing costs) during construction period is inventorised to the extent the expenditure is in the nature of directly attributable cost of bringing the asset to its working condition for its intended use.

Other expenditure (including borrowing costs) incurred during the construction period which is not directly attributable for bringing the asset to its working condition for its intended use is charged to the Statement of Profit and Loss.

Direct and other expenditure is determined based on specific identification to the construction and real estate activity. Cost incurred/ items purchased specifically for projects are taken as consumed as and when incurred/ received.

Work-in-progress - Real estate projects (including land inventory): Represents cost incurred in respect of unsold area of the real estate development projects /units or cost incurred on projects where the revenue is yet to be recognised. Real estate work-in-progress is valued at lower of cost and net realisable value.

Finished goods – Residential Flats, Commercial Units and Plots: Valued at lower of cost and net realisable value.

Land inventory - Valued at lower of cost and net realisable value.

l) Cash Flow Statement

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non cash nature and any deferral or accruals of past or future cash receipts or payments. The cash flows from regular operating, investing and financing activities of the Company are segregated.

m) Dividend:

The Company recognises a liability to make cash distributions to the equity holders of the Company when the distribution is authorised, and the distribution is no longer at the discretion of the Company. As per the provisions of the Act, a distribution is authorised when it is approved by the shareholders except in case of interim dividend which is approved by the Board of Directors. A corresponding amount is recognised directly in equity.

n) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with original maturity of three months or less, which are subject to an insignificant risk of changes in value. In the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts, if any as they are considered as integral part of the Company's cash management.

o) Earnings per share (EPS)

Basic EPS is calculated by dividing the Company's earnings for the year attributable to ordinary equity shareholders of the Company by the weighted average number of ordinary shares outstanding during the year. The earnings considered in ascertaining the Company's EPS comprise the net profit after tax attributable to equity shareholders. The weighted average number of equity shares outstanding during the year is adjusted for events of bonus issue, bonus element in a rights issue to existing shareholders, share split, and reverse share split (consolidation of shares) other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources. The diluted EPS is calculated on the same basis as basic EPS, after adjusting for the effects of potential dilutive equity shares.

p) Segment reporting

- i) **Operating segment:** Ind AS 108 operating segment requires Management to determine the reportable segments for the purpose of disclosure in financial statements based on the internal reporting reviewed by the Chief Operating Decision Maker (CODM) to assess performance and allocate resource. The standard also required Management to make judgments with respect to recognition of segments. Accordingly, the Company recognises Real Estate as its sole segment.

Note 5: Recent Accounting pronouncements

The Ministry of Corporate Affairs has not notified any new Indian Accounting Standard effective from April 1, 2026 which would impact the financial statements of the company.

-------------	------------------------	------------------------

Note 34 (c) : The nature of CSR activities undertaken by the Company

During the Financial Year 2025-2026, the provision of CSR under Section 135 of the Act were not applicable to the Company, as the Company did not meet the thresholds specified under Section 135(1) of the Act. However, as part of its commitment to social responsibility and sustainable development, the Company voluntarily undertook certain CSR activities during the Financial Year 2025-2026 and spent an amount of ₹55 lakhs on such initiatives.

The Company has undertaken CSR activities relating to Art and culture and Promoting education, including skills development.

Note 35 : Exceptional Items - (Expenses) / Income

During the year, separation of certain employees of the Company has resulted in lapse of ESAR options and reversal of unvested ESAR Charge. This includes exceptional income of Rs. 0.49 crore and decapitalization of Capital Expenditure under Capital Work-in- Progress of Rs. 0.57 crore. Consequent to the above, the Deemed Equity Contribution from Holding Company has also reduced by Rs. 1.06 crore.

On November 21, 2025, the Government of India notified the four Labour Codes - the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020, and the Occupational Safety, Health and Working Conditions Code, 2020 - consolidating 29 existing labour laws. The Company has assessed and recognised the impact of these changes on the basis of Actuarial Valuation and as per the applicable Indian Accounting Standards and the guidance provided by the Institute of Chartered Accountants of India. The Company has presented such incremental impact of ₹ 0.64 crore for gratuity under "Exceptional Items" in the financial results for the year ended March 31, 2026. The Company shall continue to monitor the finalisation of Central / State Rules and clarifications from the Government on other aspects of the Labour Code and recognise appropriate accounting impacts necessary for statutory compliances.

d. Withdrawal rate of Attrition	10.00%	10.00%

*It is actuarially calculated term of the liability using probabilities of death, withdrawal and retirement. The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

A quantitative sensitivity analysis for significant assumption as at 31 March 2026 is shown below:

Sensitivity analysis indicates the influence of a reasonable change in certain significant assumptions on the outcome of the present value of obligation.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2026

(Amounts in Indian Rupees Crores, unless otherwise stated)

The above sensitivity analyses have been calculated to show the movement in defined benefit obligation in isolation and assuming there are no other changes in market conditions at the reporting date. In practice, generally it does not occur. When we change one variable, it affects the other variables. In calculating the sensitivity, project unit credit method at the end of the reporting period has been applied.

The method and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous year.

The followings are the expected future benefit payments for the defined benefit plan:

	As at 31 March 2026	As at 31 March 2025
Within the next 12 months (next annual reporting period)	0.06	0.27
Between 1 and 5 years	0.34	0.11
Beyond 5 years	0.87	0.21
Total expected payments	1.27	0.59

Weighted average duration of defined benefit plan obligation (based on discounted cash flows):

	As at 31 March 2026	As at 31 March 2025
Weighted average duration of defined benefit plan obligation (years)	6.82	5.00

Risk exposure

Through its defined benefit plans, the entity is exposed to a number of risks, the most significant of which are detailed below:

(A) Changes in bond yields

A decrease in bond yields will increase plan liabilities.

(B) Legislative risk

Pursuant to the enactment of the Labour Codes, 2020, including the Code on Social Security, 2020, the Company has recognized the impact of changes in law on its gratuity obligations in the current year. As at the reporting date, the rules for implementation of the Labour Codes, 2020 are yet to be notified, and accordingly, any further impact on the Defined Benefit Obligation will be recognized in the period in which the relevant rules are notified and become effective.

(C) Liability Risks
(i) Asset-Liability Mismatch Risk-

Risk which arises if there is a mismatch in the duration of the assets relative to the liabilities. By matching duration with the defined benefit liabilities, the Company is successfully able to neutralize valuation swings caused by interest rate movements. Hence companies are encouraged to adopt asset-liability management.

(ii) Discount Rate Risk-

Variations in the discount rate used to compute the present value of the liabilities may seem small, but in practise can have a significant impact on the defined benefit liabilities.

(iii) Future Salary Escalation and Inflation Risk -

Since price inflation and salary growth are linked economically, they are combined for disclosure purposes. Rising salaries will often result in higher future defined benefit payments resulting in a higher present value of liabilities especially unexpected salary increases provided at management's discretion may lead to uncertainties in estimating this increasing risk.

(iv) Unfunded Plan Risk

This represents unmanaged risk and a growing liability. There is an inherent risk here that the Company may default on paying the benefits in adverse circumstances. Funding the plan removes volatility in company's financials and also benefit risk through return on the funds made available for the plan.

The following methods & assumptions were used to estimate the fair values / amortised cost as applicable

- i) The fair value of mutual funds are measured using Level 1 hierarchy. There have been no transfers among Level 1, Level 2 and Level 3 during the year.
- ii) The management assessed that the fair value of cash and cash equivalents, other bank balances, deposits and other financial assets and liabilities approximate their carrying amounts.
- iii) The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

Note 43: Financial risk management

The Company's activities expose it to market risk, interest rate risk and liquidity risk. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk.

The Company has in place a mechanism to identify, assess, monitor and mitigate various risks to key business objectives. Major risks identified are systematically addressed through risk mitigation actions on a continuing basis.

(A) Market risk

Market risk is the risk of any loss in future earnings, in realizable fair values or in future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity price fluctuations, liquidity and other market changes. Future specific market movements cannot be normally predicted with reasonable accuracy.

The Company does not have any material foreign currency obligation Accordingly, the Company does not perceive any foreign currency risk or interest rate risk.

(B) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Company has 8.25% unsecured loan from its Holding company, repayable within period of seven years or as mutually decided by both the parties.

The Company's borrowing from bank has an interest rate of 1M MCLR + "Spread" per annum subject to reset as per terms and conditions of the Loan Agreement.

The Company's variable rate borrowing is subject to interest rate fluctuations. Below is the overall exposure of the borrowing:

Particulars	31-Mar-26	31-Mar-25
Variable Rate Borrowing	80.00	-
Fixed Rate Borrowing	378.15	290.43
Total Borrowings	458.15	290.43

Cashflow Sensitivity Analysis for Variable rate instruments (Loan from ICICI Bank Limited)

A reasonably possible change of 100 basis points in interest rate would have resulted in variation in the interest expense for the Company by the amounts indicated in the table below. The Company capitalises interest to the Capital Work-in-Progress for its Real Estate Construction Project at Kothrud, Pune. Accordingly, the interest rate sensitivity would impact the amounts capitalised as Capital Work-in-Progress.

Particulars	31-Mar-26	31-Mar-25
Interest Sensitivity		
Increase by 1%	0.09	-
Decrease by 1%	(0.09)	-

(C) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. The flexibility in funding requirements is met by ensuring availability of adequate inflows.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

Particulars	On demand	Upto 1 year	More than 1 year upto 3 years	More than 3 years

Note 44: Capital Management

The Company's objectives when managing capital are to :

- safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and
- Maintain an optimal capital structure to reduce the cost of capital.

The capital structure of the company consists of Debt and total equity. In order to maintain the capital structure consistent with other companies of the industry, the Company monitors capital on the basis of the following data:

Particulars	As at 31 March 2026	As at 31 March 2025
